

Monterey Medical partners with general practice, specialists, and allied health practitioners across the country to provide local coverage for examinees. We offer a wide range of medical examination-only services for the public sector, serving agencies such as the Department of Veterans Affairs (VA), the Department of Labor, and the Department of Defense.

With a nationwide network of over 700 medical professionals, our providers conduct diagnostic-only exams on an as-needed basis. These services are delivered in private practices, established clinics across the U.S., or through group screening events that include travel opportunities. Since 2016, we have proudly supported the VA's mission to expand access for veterans to receive their much-needed disability examinations.

Monterey Medical also delivers pre-employment exams, annual physicals, and pre/post-deployment exams for organizations including the FBI, Secret Service, and Department of Defense. To date, our providers have conducted over 550,000 exams across multiple specialties through our Veteran Disability Examination, Reserve Health Readiness Program (RHRP), and Temporary Staffing programs. By focusing on building strong relationships and solving challenges, we create successful outcomes for agencies, providers, and the individuals they serve.

Delivering high-quality exams with consistent accuracy and reliability.

700+

Certified Provider Network

A nationwide network of certified providers across diverse medical specialties.

500K+

Patients Served

Supporting patients with trusted care and measurable positive outcomes.

Provider Network Opportunities

Veteran Disability Examinations

Our network offers healthcare providers the flexibility to conduct medical evaluations in their own clinic. These exam-only services focus solely on assessments, with no follow-ups or treatment required. Providers also avoid the administrative burden of billing and insurance claims, allowing them to concentrate entirely on delivering quality evaluations for our nation's veterans.

Reserve Health Readiness Program (RHRP)

Providers have the flexibility to conduct medical evaluations in their own clinic or at one of our partner locations, with scheduling options that fit their availability. These exam-only services do not require follow-ups or treatment, and providers receive reliable payments twice a month. With no billing or insurance claims to manage, the focus remains on delivering high-quality care to National Guardsmen and reserve force members.

Temporary Staffing

Temporary staffing opportunities are available through short-term and long-term contracts across various healthcare settings. These include VA medical facilities, Indian Health Service reservations, Job Corps centers, and federal, state, and local government agencies. Each role offers an opportunity to make a meaningful contribution to veterans and the military community while gaining valuable experience in diverse clinical settings.

Provider Testimonials

"I am thankful for this opportunity to serve our veterans and to partner with Monterey. I can honestly say working with Monterey has been a great experience — I feel supported as well as valued, and I am so grateful for both! I look forward to continued collaboration to serve our Veterans."

Dr. Shani Nichols-Bates
General Medicine
Location: Mississippi

"My work with Monterey is an absolute dream job. I get to work with like-minded professionals and care for some of our nation's brightest and most dedicated people on the planet. I am very grateful for this opportunity."

Dr. Michael Murrell
Psychologist
Location: Missouri

"Their communication has been super. When we have issues, there seems to be a personal approach to solving problems and not the "corporate runaround". We love Monterey for this."

Dr. Dustin Ly
General Medicine
Location: Florida
