

**Veteran-Focused Integration Process (VIP) Life Cycle Components:**

# **Module 11— Project Close Out Phase**

# Agenda

- What's Happening?
- Who's Involved?
- What's Next?

**What's Happening?**

# 90-Day Defect Resolution Period

- Level of service is maintained
- Knowledge is transferred
- Defects are repaired
- Transition to Sustainment is successful

**Who's Involved?**

# Key Roles

- Release Agent
- Configuration Manager
- Project Manager

# Release Agent

- Evaluates and records release metrics
- Notes lessons learned

# Configuration Manager

- Records details of the as-built product in Rational Team Concert

# Project Manager

- Works with Configuration Manager and Testing Manager
- Ensures defects, repairs, testing, and other changes to the product are completed and are recorded in Rational

The image features a large, dark blue arrow pointing horizontally to the right. The arrow is set against a background with a light blue and white geometric pattern of triangles. A thick green curved line arches over the top of the arrow. The text "What's Next?" is written in white, bold, sans-serif font inside the arrow.

**What's Next?**

# Frequently Asked Question #1

**Question:** Who stays assigned and supports the transition to Sustainment?

# Frequently Asked Question #1

**Question:** Who stays assigned and supports the transition to Sustainment?

**Answer:** The Agile Project Team
